

On-the-Fly Programmer Quick Start Guide

Safety Warnings

- Do not leave children or pets unattended in or near the vehicles.
- Never drive too fast. The terrain, conditions, and the operator's skill should determine a safe speed.
- Drive at a reduced speed and use extra caution when carrying passengers or cargo.
- Avoid sharp turns and do not accelerate quickly when turning.
- Always look behind you before and while backing up.
- Reduce speed when towing and allow more room for stopping and turning.
- Drive with wheels straight when going up and down hills.
- Slow down and use brakes when going down hills.
- Never drive on hills with a slope greater than 15 degrees.
- Do not drive through running water or water above the floor of the vehicle.
- If you must cross shallow water, make sure to stop and inspect the area for sudden drop-offs, large rocks or slippery surfaces. Always proceed with caution or choose a safer route.
- When towing this vehicle make sure the vehicle is turned off, the Run/Tow switch is in Tow, and the batteries' main power is disconnected.
- Never exceed the towing capacity rating as specified by the vehicle manufacturer.
- Keep electrical components dry and DO NOT wash with direct stream or pressure washer.
- Never rewire, bypass, or change the wires, switches, or controller. Contact your dealer or the manufacturer if the vehicle is not operating correctly.
- Keep the controller and the area around it clean and free of debris.
- Vehicle and all parts must be serviced by qualified service personnel. For an authorize service location see your local dealer or visit www.starev.com/dealer-locator/ to find your closest dealer.
